

MYRTLE BEACH YACHT CLUB

Tide Lines

OCTOBER 2025

Volume 17 Issue 10

From the Commodore

Hello fellow MBYC members,

The Labor Day party was another social activity success. It was well planned, well attended, with enjoyable weather. Thanks to all those who helped make this gathering a pleasurable time for the attendees.

All nonworking electric meters on B dock have been replaced. The Category 6 cable for A dock and C dock has been installed for replacement electric meters which is scheduled to begin in the coming weeks.

As this brief newsletter update is being written, we are under a weather state of emergency due to a potential named storm approaching the SC Coast. Storms intensity and track are difficult to accurately forecast. This storm is not forecast to be a major hurricane but everyone should stay weather aware and have their boats secured in case the system does develop into an impact for our area. When they are close to the coast, as this storm is predicted to be, it leaves little time to make preparations should the storm intensify or change directions.

Hope to see you around the Yacht Club or out on the water,

John

MBYC BOARD OF DIRECTORS

 Check out our Daily Lunch & Dinner Specials
 Happy Hour Wednesday-Saturday 3-5
 Sunday Funday...Happy Hour ALL DAY
 Reservations Encouraged
 Now Taking Reservations for Saint Patrick's Day!

Fall transient season is starting up!

And fall is a great time to get out on the water and enjoy the beautiful weather on your boat.

HURICANE PREPARATION PLAN

1. Dock boxes secured with locks, zip ties or rope.
2. Docks are clear of all lightweight or loose items.
3. Boat owners need to secure loose or lightweight items to prevent flying objects.
4. All boat dock lines need to be checked for proper knots, chafing, size, quantity, etc..
5. Double dock lines are highly suggested.

Continue to monitor NOAA thru the event. The MBYC staff will be walking docks a head of the storm and advise owner's of any issues. Office may close as needed due to weather event.
